• Enrollment Limitations - Offered area must be an escarpment area and meet practice eligibility requirement. 350 ft. maximum enrollment width.

‡ Enrollment Limitations - Offered area must meet practice eligibility requirement. Size of each filter and recharge area is determined by the size of the contributing drainage area. At a minimum, each filter and recharge area shall be no less than 0.25 acres and measuring no less than 100 feet by 100 feet and shall not exceed 4 acres.

Δ Saturated Buffers will also receive \$1000 management incentive payment for each system installed.

Ω ODA will provide Incentive Payments on ALL Re-enroll contracts

* LECREP has an acreage allocation limit of 67,000 acres total

* Only acreage currently enrolled in CREP can be re-enrolled in CREP

* Climate Smart Incentive does NOT apply to CREP

* CP22 is the only practice that can be installed on Marginal Pastureland

* Per acre SRR Incentive Payments do NOT apply to Infeasible to Farm (ITF) land enrolled using ITF criteria

* Per acre Maintenance Payment DO apply to ITF eligible land

* MPL eligible land will receive the applicable MPL rate for the county, plus applicable per acre incentive payments

* SIP is considered an annual rental payment & is subject to the \$50,000 payment limitation // C/S & PIP do NOT count towards the payment limitation.

* PIP is authorized for re-enrolled acres ONLY if NRCS determines the a new practice is needed and feasible to address a resource concern not currently being addressed by the expiring CRP practice. Land being enrolled that is established to a new practice is eligible for PIP.

* C/S is not authorized for any land re-enrolled through the LECREP or SRWCREP program (exception applies - REF: 2-CRP Ohio Amendment 3 ¶ 490D

* C/S is not authorized for management activities - Only exception is CP22 which MUST have management activities included on the NRCS-CPA-1155

* Haying and/or Grazing is NOT authorized on land enrolled in CRP through LECREP

Effective for Signup 59 and future signups
